**Re: Attainment Demonstration State Implementation Plan Revision for the
Lead NAAQS for the Partial Fulton County Nonattainment Area in the
State of Ohio**

Dear Administrator Hedman:

I am writing to submit the Ohio Environmental Protection Agency (Ohio EPA) plan for attaining and maintaining the lead NAAQS in the partial Fulton County nonattainment area. On November 22, 2010 (75 FR 71033), effective December 31, 2010, U.S. EPA promulgated the initial lead nonattainment areas for the revised lead standard across the country. The CAA Amendments requires states with lead nonattainment areas to submit a plan within eighteen months of the effective date of the designations (June 30, 2012) detailing how the lead standard will be attained by December 31, 2015.

This document is the Lead State Implementation Plan (SIP) for the partial Fulton County nonattainment area in the State of Ohio. This partial nonattainment area encompasses emissions from the Bunting Bearings LLC. Bunting (Ohio EPA facility identification # 0326000015) is located at 200 Van Buren Street, Delta, Ohio, 43515.

This submittal includes a demonstration of attainment of the air quality standard by December 15, 2015. Ohio EPA has performed a Reasonably Available Control Measure (RACM) analysis for Bunting and has determined that existing controls and practices constitutes RACM. In addition, Bunting is implementing an improved maintenance program that address housekeeping issues that will ensure exceedances are addressed.

Ohio EPA notified the public of the draft and the opportunity to provide comments on May 11, 2012. This notice was also published in a newspaper of general

circulation in Wauseon, Ohio. The public hearing for this package was held on June 14, 2012 in Wauseon, Ohio. No testimony was provided at the hearing and the only comments submitted were from U.S. EPA.

If you have questions, please contact Jennifer Dines in our Division of Air Pollution Control at (614) 644-3696.

Sincerely,

Scott J. Nally
Director
