

[Comment: For dates of non-regulatory government publications, publications of recognized organizations and associations, federal rules, and federal statutory provisions referenced in this rule, see paragraph (C) of rule 3745-104-01 of the Administrative Code titled "Referenced materials."]

- (A) The owner or operator shall compile and maintain the following up-to-date safety information related to the regulated substances, processes, and equipment:
- (1) Material safety data sheets that meet the requirements of 29 CFR 1910.1200(g);
 - (2) Maximum intended inventory of equipment in which the regulated substances are stored or processed;
 - (3) Safe upper and lower temperatures, pressures, flows, and compositions;
 - (4) Equipment specifications; and
 - (5) Codes and standards used to design, build, and operate the process.
- (B) The owner or operator shall ensure that the process is designed in compliance with recognized and generally accepted good engineering practices. Compliance with federal or state regulations that address industry-specific safe design or with industry-specific design codes and standards may be used to demonstrate compliance with this paragraph.
- (C) The owner or operator shall update the safety information if a major change occurs that makes the information inaccurate.
