

Attainment provisions - data submission requirements.

(A) Applicability

This section applies to any *major stationary source* or *major modification* that is to be constructed in an area designated in 40 CFR 81.336 et seq as attainment for an air pollutant for which the *major stationary source* or *major modification* is major.

(B) Data submission authority

The owner or operator of a proposed *major stationary source* or *major modification* shall submit all information necessary to perform any analysis or make any determination required under this rule.

(C) Minimum data submission requirements

The information required under paragraph (A) of this rule shall include:

- (1) A description of the nature, location, design capacity and typical operating schedule of the *major stationary source* or *major modification*, including specifications and drawings showing the *emissions units* design and plant layout;
- (2) A detailed schedule for *construction* of the *major stationary source* or *major modification*;
- (3) For each *emissions unit* a detailed description as to what system of continuous emissions reduction is planned by the *major stationary source* or *major modification*, emission estimates, including maximum emission rates and any other information as necessary to determine that *best available control technology* as applicable would be applied;
- (4) The air quality impact of the *major stationary source* or *major modification*, including meteorological and topographical data necessary to estimate such impact; and
- (5) The air quality impacts and the nature and extent of any or all general commercial, residential, industrial and other growth that has occurred since the *baseline date* was set in the area the *major stationary source* or *major modification* would affect.
