

3745-31-16 Attainment provisions - major stationary source
impact analysis.

(A) Applicability

This section applies to any *major stationary source* or *major modification* that is to be constructed in an area designated in 40 CFR 81.336 et seq as attainment for an air pollutant for which the *major stationary source* or *major modification* is major.

(B) Impact Analysis

Any owner or operator of a proposed *major stationary source* or *major modification* shall demonstrate that *allowable emissions* increases from the proposed *major stationary source* or *major modification*, in conjunction with all other applicable emissions increases or reductions (including *secondary emissions*), would not cause or contribute to air pollution in violation of:

- (1) Any national ambient air quality standard; or
- (2) Any applicable maximum allowable increase over the *baseline concentration* in any attainment area.
