

3745-54-95 Point of compliance

- (A) The permit will specify the point of compliance at which the ground water protection standard of rule 3745-54-92 of the Administrative Code applies and at which monitoring must be conducted. The point of compliance is a vertical surface located at the hydraulically downgradient limit of the waste management area that extends down into the uppermost aquifer underlying the regulated units.
- (B) The waste management area is the limit projected in the horizontal plane of the area on which waste will be placed during the active life of a regulated unit.
 - (1) The waste management area includes horizontal space taken up by any liner, dike or other barrier designed to contain waste in a regulated unit.
 - (2) If the facility contains more than one regulated unit, the waste management area is described in an imaginary line circumscribing the several regulated units.
