

\*\*\* DRAFT – NOT FOR FILING \*\*\*

3745-511-810      Ditches.

(A) Ditches shall be designed to accommodate the peak flow from the twenty-five-year, twenty-four-hour storm event.

(B) Ditches shall be designed to minimize silting, scouring, and erosion.

(C) The slope of ditches along flow lines shall be a minimum of two per cent.
