

**\*\*\* DRAFT – NOT FOR FILING \*\*\***

3745-512-210      Ground water control structures.

Certification of ground water control structures by the owner or operator shall include the following:

- (A) Record drawings of the ground water control structures showing the location, plan views, cross sections, and details, as constructed.
- (B) Results of all testing and verification that the ground water control structures meet the specifications in the authorizing document.
