**Re: Mt. Eaton Landfill, Wayne County
Extension of Deadline for Landfill Closure Construction**

Dear Mr. Frola:

On April 10, 2002, Ohio EPA received a request from URS Corporation, on behalf of Norton Environmental, for an extension of the closure deadline for the existing 38-acre unit at the Mt. Eaton Landfill (landfill) located in Wayne County, Ohio. Specifically, the request asks to extend the deadline to December 31, 2002.

Pursuant to Director's Final Findings and Orders issued on December 30, 1998, the owner/operator was required to close the landfill's 38-acre existing unit. On May 3, 2000, Ohio EPA approved the Final Closure/Post-Closure Care Plan. Condition Number 6 of the approval required the completion of closure of the existing unit within two years of the effective date of the approval - May 3, 2002.

The owner/operator began construction of the cap system in February 2001 and has completed construction of 24 acres of the final cap system. Construction is ongoing to complete the remaining 14 acres. However, the owner/operator will be unable to complete the cap system construction by the May 3, 2002, deadline.

Ohio EPA has reviewed the request and hereby authorizes an extension of the closure deadline for the landfill's 38-acre existing unit. All closure activities for the landfill's 38-acre existing unit must be completed by December 31, 2002.

You are hereby notified that this action of the Director of Environmental Protection is final and may be appealed to the Environmental Review Appeals Commission pursuant to Ohio Revised Code Section 3745.04. The appeal must be in writing and set forth the action complained of and the grounds upon which the appeal is based. The appeal must be filed with the commission within 30 days after notice of the director's action. Notice of the filing
