Application Received: October 5, 2001
Solid Waste Permit Fee: \$1,000.00
Permit Fee Balance: \$ 600.00

Applicant: Pike Sanitation, Inc.
Address: 123 South Lock Street
City, State, Zip: Waverly, OH 45690
Phone: (740) 947-5756

Name: Pike Sanitation Landfill Scrap Tire Monocell
Location: Located approximately three miles southeast of Waverly, Ohio at 11775 State Route 220 in Seal Township, Pike County.
PTI: Authorized Maximum Daily Waste Receipt Decrease

Issuance Date: NOV 23 2001

Effective Date: NOV 23 2001

OHIO E.P.A.
NOV 23 2001
INTERED DIRECTOR'S JOURNAL

The above named entity is hereby issued a permit approval (permit-to-install) for the above described source pursuant to Chapter 3745-31 of the Ohio Administrative Code (OAC). Issuance of this permit approval (permit-to-install) does not constitute expressed or implied approval or agreement that, if constructed and/or modified in accordance with the plans, specifications, and/or information accompanying the permit application, the above described source of environmental pollutants will operate in compliance with applicable state and federal laws, rules, and regulations, and does not constitute expressed or implied assurances that if constructed and/or modified in accordance with those plans, specifications, and/or information accompanying the permit application, the above described source of environmental pollutants will be granted the necessary operating permits and/or licenses. This permit approval (permit-to-install) is issued subject to the attached conditions which are hereby incorporated and made a part hereof.

Ohio Environmental Protection Agency

I certify this to be a true and correct copy of the official record of the actions of the Ohio Environmental Protection Agency

By  Date 11/23/01

Christopher Jones, Director

PTI SUMMARY

On April 20, 1999, Pike Sanitation, Inc. (Pike) was issued a permit approval (PTI Number 06-5678) for the establishment of the Pike Sanitation Landfill Scrap Tire Monocell (Facility). Condition Number 11 of that permit approval established the authorized maximum daily waste receipt (AMDWR) at 200 tons. PTI Number 06-5678 was issued to modify the facility as originally permitted by PTI Number 06-4200, issued on April 12, 1996. On October 5, 2001, Pike requested the reduction of the AMDWR to 100 tons. The operational life of the Facility will be approximately 12 years based on the reduced AMDWR and the application of a weekly soil cover to the working face. The Facility meets all design requirements of OAC Chapter 3745-27.

This summary is provided solely for informational purposes and does not constitute a part of, or otherwise affect, this permit approval.

PTI CONDITIONS

1. The director, or an authorized representative, may enter upon the premises of the above named applicant (permittee) during construction and operation at any reasonable time for the purpose of making inspections, conducting tests, or examining records or reports pertaining to the construction, modification, or installation of the above described source of environmental pollutants (scrap tire monocell facility).
2. The proposed facility shall be constructed in accordance with the plans, specifications, and information submitted as part of the application for this permit approval. There may be no deviation from the approved plans without the express, written approval of the Ohio Environmental Protection Agency (Ohio EPA). Any deviation from the approved plans or the permit conditions may lead to such sanctions and penalties as provided under Ohio law. Approval of these plans does not constitute an assurance that the facility will operate in compliance with all Ohio laws and regulations. Additional facilities shall be installed upon orders of Ohio EPA if the proposed scrap tire monocell facility is inadequate or cannot meet applicable standards.
3. Issuance of this permit approval does not relieve the applicant of the duty to comply with all applicable federal, state, and local laws, ordinances, and regulations.
4. This permit approval shall apply only to those facilities shown on the plans submitted as part of PTI Application Number 06-5678, and as approved on April 20, 1999.

5. The permittee shall comply with all other requirements of PTI Number 06-4200, as issued on April 12, 1996; PTI Number 06-5678, as issued on April 20, 1999; and all subsequent alterations and modifications which are not superseded by the terms and conditions contained in this permit approval.
6. The AMDWR for the facility is hereby established to be 100 tons. This supersedes any other previously specified AMDWR for the facility. This permit approval shall apply only to the decrease in the facility's AMDWR.
7. This permit approval may be modified, or alternatively revoked and reissued, to comply with any revisions to OAC Chapters 3745-27 and 3745-31 applicable to this scrap tire monocell facility.
8. The permittee shall provide for the proper maintenance and operation of the scrap tire monocell facility in accordance with the provisions of OAC Chapter 3745-27.
9. Nothing in this permit approval shall be interpreted to release the permittee from responsibility under Ohio Revised Code (ORC) Chapters 3704, 3714, 3734, or 6111; under the Federal Clean Water Act, the Resource Conservation and Recovery Act, the Toxic Substances Control Act, or the Comprehensive Environmental Response, Compensation, and Liability Act; or from other applicable requirements for remedying conditions resulting from any release of contaminants from the facility to the environment.
10. This permit does not include approval for the acceptance of any hazardous or infectious waste, except for those excluded from hazardous or infectious waste regulation by Ohio Revised Code (ORC) Chapter 3734.
11. Pursuant to ORC Sections 3745.11 (Q) and (V), payment of the solid waste permit-to-install fee balance, in the amount of \$600.00 payable to "Treasurer, State of Ohio", shall be submitted to Ohio EPA, Attn: Fiscal Administration, P.O. Box 1049, Columbus, Ohio. The fee balance shall be submitted within 30 days of the effective date of this permit approval. Failure to timely submit the required fee balance will result in assessment of late penalties in accordance with ORC Sections 3745.11 (Q) and (V).
